SUMMARY

Technical Writer with 5+ years writing RU and EN documentation, Docs-as-Code expert, MkDocs specialist, GitHub Actions and CI/CD pipelines builder.

EXPERIENCE

Technical Writer, IE/Freelancer,

Jan 2025

- Building documentation from scratch for [Stormbpmn.com](https://stormbpmn.com): designing the documentation structure, setting up documentation builders, creating CI/CD pipelines.
- Writing documentation and blog articles for oblako.kz: blog posts about Cloud technologies, AI, VPS.

Technical Writer, Yandex,

Aug 2023 — Jan 2025

I contributed to the following documentation resources for YDB and related products: YDB [customer doc.](#); YDB [cloud customer doc.](#); DataLens [cloud customer doc.](#); Repository with [Terraform scenarios](#) for YDB.

Technical Writer, 1cloud,

Feb 2021 — May 2023

Developed CLI tool for 1cloud VPS management using the API · Maintained API documentation · Provided technical support to clients · Wrote blog articles, manuals and user guides

Technical Writer, Beget,

Sep 2020 — Jan 2021

Managed Beget technical blog writing VPS, domains & hosting articles · Built support team scripts & automation tools · Authored user manuals and VPS troubleshooting guides for customers

Copywriter, Jug Ru Group,

Feb 2019 — Jul 2020

At Jug Ru Group, I worked as a copywriter, creating social media posts, drafting emails, and managing the content plan. I also worked with Confluence to organize and maintain marketing department materials.
